Canadian Legion Dec. 31, 30 Celebrate Armistice

The Canadian Legion are to be complimented on the manner in which they put over the Armistice Day celebration. Besides the large gathering of the general public, there was a large attendance of returned men and their families from every section of this, and adjoining districts.

The I.O.D.E. had charge of the supper, which took place in the basement of Knox United Church and at which about four hundred people were provided with good things to eat.

The Opera House was crowded to capacity for the concert, and the people present were highly delighted with the fare provided, almost every number being applauded to the encore.

Miss Evelyn Liesemer made her first public appearance as a cellist, and delighted the audience with her playing.

Mr. Rounce, of Calgary, Mr. Stan Edwards, of Olds, and Mr. Roland Webster, of Westcott, rendered songs appropriate to the occasion.

The lighter side of the program was well taken care of by Mr. G. E. Wallace, of Calgary, and Mr. Jack Robertson, of Westcott. Their humorous songs brought down the house.

Miss Laura Liesemer officiated as accompanist in a very delightful manner.

Mayor H. W. Chambers made a very efficient chairman, and Mr. W. A. Austin spoke on the aims and objects of the Legion.

Mr. Farmer, of Carstairs, on behalf of the visiting returned men, gave greetings to the local Legion, and thanked them for the welcome the visitors received.

The dance, which followed the concert, was attended by the larger part of the crowd, and the home-sweet-home waltz about 2 a.m., ended a most enjoyable and memorable evening.

I.O.D.E. Masquerade Ball

The Masquerade Ball given by the Mons Chapter of the I.O.D.E. was one of the most successful affairs of its kind ever held here. There was a good attendance, and the costumes worn by the masqueraders made a colorful scene on the floor, and much amusement was obtained from the various comic characters.

The music was supplied by the Irving Royal Canadian Orchestra, of Calgary, and the following were the prizewinners:

Best Dressed Couple: Misses W. Studer, and M. Pearson.

Best Dressed Lady: Miss M. Ranton, "Pirate"

Best Comic Gentleman: Mrs. W. J. McCoy, "Josiah Allen"

Best Comic Lady: Mrs. E. G. Ranton, "Samantha Allen"

Best Home-made Costume, Gent.: Mr. W. J. McCoy, "Aunt Jemima." Lady: Miss L. Knudsvig.

Silver Wedding

A number of friends and relatives gathered at the home of Mr. and Mrs. W. Birdsall on Thanksgiving Day, to celebrate the twenty-fifth anniversary of their wedding.

Twenty three guests sat down to a lovely turkey dinner, which was thoroughly enjoyed. Those present besides the family, were: Mrs. Arthur J. Barbee, and daughter Pauline, of Portland, Oregon; Mr. and Mrs. W. K. Moore, and family, Three Hills; Mr. John Moore, srt., father of Mrs. Birdsall; Mr. R. E. Moore, and Miss Lille Heggen, Stavely; Mr. J. C. Moore, Calgary; Messrs. Geoffrey and John Dunkley, Olds, and Mr. and Mrs. A. T. Hall, Calgary.

The family present was a Victor Orthophonic.

At a party of friends, held at the Coburn School a week previous, Mr. and Mrs. Birdsall were presented with a lovely gift of silver by the community.

LOCAL & GENERAL

Mr. Cecil Adshead, made a trip out to the Big Prairie country on Monday.

Mr. Peter Weber, of Fort Saskatchewan spent the holidays with his brother Mr. Ivan Weber.

Misses Maisie and Dorothy Sinclair visited the Misses Mjolsness in Innisfail last Friday.

Mr. and Mrs. H. J. Tonjun and Murray Palmer drove to Calgary on Monday to witness the Rugby game.

The Hockey Club is announcing "Ye Olde Tyme Dance" on Nov. 28th.

Mr. and Mrs. J. Shields drove to Pincher Creek, where they spent the week-end.

Messrs. George and Archie Murray, of Elsora, visited Mr. and Mrs. C. B. Adshead over the week end.

Misses Myrtice and Marian Fisher, of Calgary spent the holidays with their parents, Mr. and Mrs. A. O. Fisher.

Mr. and Mrs. H. O. Davies, returned on Tuesday from Alhambra Alberta where they have been spending their honeymoon.

Mrs. John Murray, of Murray Valley, visited Mr. and Mrs. Adshead and Mrs. McMow on Sunday.

Mr. Ellwood Evans, of McLeod, spent Thanksgiving with his parents, and Mr. Howard Evans, of Clareholm, motored here for the occasion.

Miss Isaac, Worthy Grand Matron of the Grand Chapter of Alberta, O.E.S., was the guest of Mrs. W. G. Evans during her official visit here.

The Y. girls are holding a tea and sale of home-baking and candy, in the vacant room next to J. Kirby's Meat Market, on Saturday, November 15th, from 2 to 6.30 p.m.

A series of dances will be held in the Didsbury Opera House, every Saturday night. Ladies, 25c. and Gents, 25c. Bellamy Orchestra. u.f.n.

Messrs. Eddie and Ross Ford motored to Waskatenan on Saturday, to visit their brother Corden Ford. While there Ross was lucky enough to win a turkey which he brought home.

Mrs. M. Tilney, of Drumheller and Mrs. Reuter, of Carstairs were visitors with Mr. and Mrs. Ivan Weber on Sunday. On Monday they entertained Mr. and Mrs. W. F. Reid and Mrs. Reid, sen. of Calgary.

A most enjoyable Bridge Party was held at the Nurses Home on Wednesday evening of last week. Four tables of bridge was played. The prize winners were, ladies 1st Mrs. H. C. Fisher; consolation Mrs. J. Fleury. Gentlemen, 1st. Mr. J. Fleury; consolation Mr. Bill McFarquhar.

Hunters Bring Home Their Game

Quite a number of hunters went out to the west country, and some of them brought back their game, while others were not so fortunate.

They report that the dry condition of the woods makes hunting somewhat difficult, as the rustle of the fallen leaves and twigs can be heard for a long distance.

Messrs. Stewart Tighe, Harold Tighe, Sam Thompson and A. Peterson had good luck in the Clearwater country. They brought home three moose and one deer. Mr. Stewart Tighe shot the biggest moose, which had a horns spread of over five feet.

Messrs. A. C. Fisher and J. Topley, accompanied by a couple of visitors, returned from an eight-day hunt in the head-waters of the Red Deer. They brought in one deer. Jack says that was one quarter each and when that is finished, they will go out again.

The three barbers, and Messrs. J. Caithness, J. Kirby, and Roll Hawkes made up a party, and hunted in the Sundre district. Tommy Johnson was successful in bringing down a two-point deer. He says it wasn't very big, but the next time he goes out — "Oh Boy!"

Harvey Hosegood has found a new way of getting his deer. When going home with his truck the other night, he ran into a deer, which apparently had been blinded by the headlights. It cost Harvey the price of a new headlight and a couple of fenders, but he got his deer, anyway.

The Songster Brigade, consisting of about thirty members of the Calgary Salvation Army, in Evangelical Church, next Sunday evening, 7.15.

Westerdale United Church was the scene of a large gathering on Monday evening. The Ladies' Aid served a chicken supper in the hall, after which the people repaired to the Church for a concert. The choir of Knox Church, Didsbury, assisted local talent in various musical items. Mrs. Geo. Jackson gave a reading, and Mrs. C. Bolton, a violin solo, accompanied by Mr. Jones. Knox Church Choir, accompanied by Mrs. Boorman, sang two anthems, and the quartette also gave a number. Miss Pearson Ranton sang a duet, and Mrs. D. Edwards, a solo. Rev. A. E. Hayes acted as chairman, and gave a lecture on the life of David Livingstone.

Our National Parks

On May 9th of this present year, a Bill to be known as the National Parks Act passed the House of Commons and was shortly afterwards ratified by the Senate and signed by the Governor-General.

This marked the beginning of a new era for the National Parks of Canada. They have now reached that state of importance in the administrative eye which entitles them to a separate Act. Formerly they were simply an afterthought administered under the Dominion Forest Reserve and Parks Act. No longer can they aptly be compared with the house which was built upon the sand. The new National Parks Act is the rock upon which will be built a park system of which Canadians for all time will be justly proud, a system which will endure, a system having the stability of a mountain. No longer will the parks boundaries and policy of administration fluctuate with the rise and fall of the various political parties in power at Ottawa, because they can never again be made the political policy of any party, but are the policy, property and pride of each and every individual Canadian in this broad Dominion.

By the former Act all matters affecting parks were under the direct control of the Minister of the Interior through the Parks Branch, and an order-in-council could without the consent or even the knowledge of Parliament establish new parks, relinquish all or part of the present parks, sell or lease any water power, timber berth, mining claim, or other commercial concession in the boundaries of any park.

By the new Act, thirty days' notice of any such matter affecting the parks must be published in the Canada Gazette, and then the matter takes the form of a private bill and may be thoroughly discussed by the people's representatives in Parliament before becoming law. Surely a reasonable way of dealing with park areas which belong not to any individual community or province but to the people of Canada as a nation.

It is well that such protection has been thrown around our great and expanding system of National Parks, because as population increases and the country becomes more and more industrialized, efforts to secure portions of National Parks areas for purposes of commercial exploitation become more numerous and harder to resist. Yet they must be resisted if the beauty, and therefore the value, of our National Parks is not to be destroyed.

Once embark on a recognized policy of alienating water-powers in our National Parks for commercial purposes and a precedent is established which will be cited by other interests. Our National Parks are rich in forests. With the waters and mountains they constitute the beauty of the parks; without them there would be little or no water. But the lumbering interests look upon them with envious eyes, and if the water-powers are to be exploited by the hydro companies, why not the forests by the lumbering interests?

So, too, some of the National Park areas are believed to be rich in minerals, but what would become of these parks if unsightly mining camps, with their piles of refuse, oil derricks, ugly mine buildings, and all that is inseparable from mining camps and towns were allowed to spring up within their borders?

But if the door is opened to commercial exploitation in one direction, it will be well-nigh impossible to stop it in other directions.

The water-powers, the forests and the minerals within our National Parks undoubtedly have a commercial value, but so, too, have the Parks themselves in their natural state of beauty. Commercial exploitation of the forests would in a few years lessen and in time destroy their value. Cutting of the trees would lower and ultimately destroy the lakes, rivers and waterfalls. Mining operations in time would exhaust the minerals. Commercial inroads in the National Parks would mean a gradual depreciation in values.

But retention of our National Parks in all their natural beauty will add to their commercial value to Canada as magnets which will attract ever increasing numbers of tourists from all parts of the world, while maintaining for Canadians of future generations the delights and benefits of great national playgrounds, places of inspiration, and of health-giving happiness.

It is well, therefore, that the new National Parks Act has become the law of Canada. In this Dominion, as in the United States, we must face the fact that commercialism is the peril of our National Parks system. The almighty dollar, declared by Washington Irving to be the American god, is the obtruding deity. The struggle is between the lower and the higher, the sordid and the ideal.

Speaking for the then president of the United States at the annual opening of the Yellowstone National Park in 1923, Dr. John Wesley Hill said: "Regardless of all facts and figures, arguments, appeals and threats, any plan however meritorious on its face for the commercial exploitation of parks must by the very nature of its aims and purposes be immediately doomed to failure. Good projects, bad projects, indifferent projects, all must face the same fate, for it is the established policy of the Government that our national parks must and shall forever be maintained in absolute, unimpaired form, not only for the present, but for all time to come. This fixed policy will not be swerved a hair's breadth by any influence, financial, political or otherwise. If rights are granted to one claimant, others must follow; so a precedent must not be established. It would inevitably ruin the entire National Parks system."

Canada can do no less, and if any attempt is made, no matter in what guise, to infringe upon the rights of all the people in their National Parks, they should arise in their might and end any such attempt. The power is now in their hands by virtue of the new National Parks Act.

Seek Lower Rate On Cattle Shipments

Negotiation For Decrease In Transportation Charges On Exports To Britain

Hon. Robert Weir, Minister of Agriculture, is in negotiation with the Atlantic shipping companies and the railways in an effort to obtain a decrease in the transportation charges on cattle exported to Great Britain, which will open up this market to large scale shipments from western Canada.

The negotiations have not proceeded far enough to warrant any forecast of results. Mr. Weir, however, has got to the point where he is advocating an entirely new policy, endeavoring to change the whole basis upon which rates have been imposed in the past.

In regard to the ocean rate, Mr. Weir is endeavoring to have the whole rate basis changed. He wants shipping companies to quote rates by the ton instead of by the head. Such an arrangement would give shippers advantages in shipping stock of various weights. A definite decision in this regard will be reached before long.

When Languid And Anaemic

When a girl is languid, dull and irritable; when her color fades you may be sure her blood is impoverished. When a girl's blood is poor her nerves are starved and there is serious danger of a decline. Rebuild the blood, strengthen the nerves and good health will follow.

Dr. Williams' Pink Pills are of untold value as a blood-builder. Concerning them Mrs. John Finin, Howlan Station, P.E.I., says: — "My daughter was badly run down; pale, nervous and under weight. We decided to give her Dr. Williams' Pink Pills. After a few boxes she gained in weight, her appetite improved and color came to her cheeks—in fact she fully regained her former good health."

You can get these Pills at all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

For Underwater Safety

Invention Ensures Escape From Submarines At Great Depth

R. H. Davis has perfected an invention which will enable escape from submarines far under the sea. The invention consists of a breathing bag which is supplied oxygen by a small cylinder of oxygen fixed below it. Poisonous carbonic acid gas of the exhaled breath is absorbed by a cartridge of soda lime. A special suit containing the breathing apparatus is donned in case of accident under the water. It has been tested at a great depth.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness; all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

New Aircraft Engine

A revolutionary type of aircraft has been developed in South Africa. The weight of the engine per horse-power is said to be from a quarter to a third less than that of other engines. It is said to have no rods, crank-shaft, shaft reduction gear or timing gear, and that there are only one-sixth the usual number of parts.

Relieves Asthma At Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

A Garden Of Sorts

He had been to the manager's office to ask him for the day off so that he could dig up his garden.

"But, my good man," said the manager, "Jones told me only the other day that you hadn't got a garden."

"Well, someone must have taken it off the window-sill," was the calm reply.

Yukon Big Game

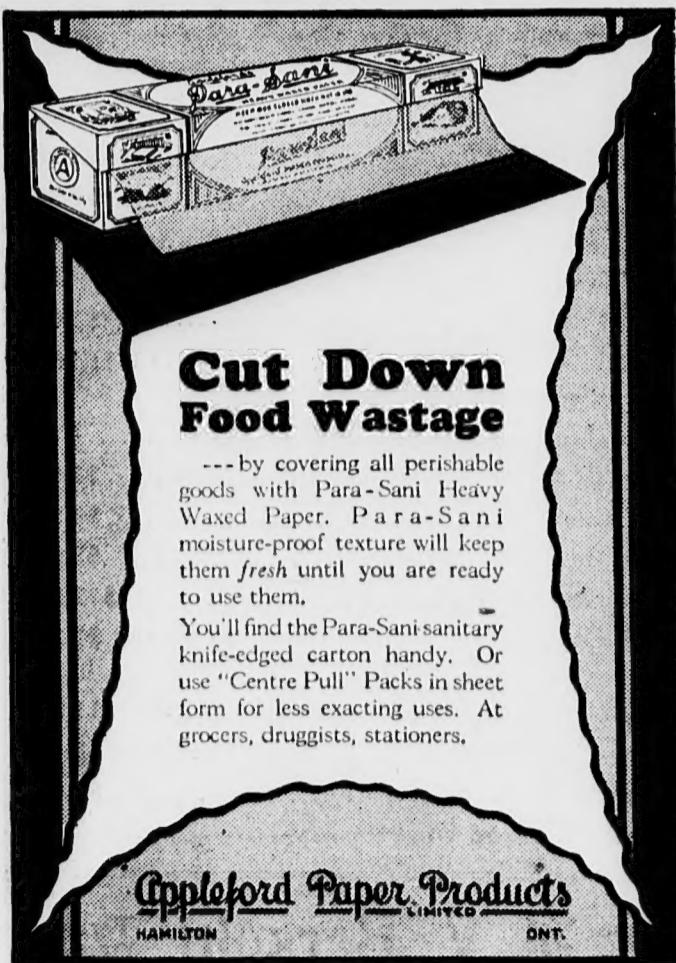

Yukon Territory, Canada, is the paradise of big game hunters and no place on the North American continent today offers greater inducements both for the variety of big game and for the dimensions of the trophies to be secured. Mountain sheep, moose, goat, caribou, and bear are numerous. The moose are of the "giant" species, and bear includes black, brown and grizzly.

WHOLE FAMILY HAD DYSENTERY

Dysentery is one of the worst forms of bowel complaint and should be checked at once as its termination often proves fatal.

Mrs. H. F. Stewart, Findlater, Sask., writes: — "Two years ago we were all very bad with attacks of dysentery. My husband got a bottle of Dr. Fowler's Extract of Wild Strawberry and after taking three or four doses we were completely relieved. Since then we have never been without a bottle of it in the house."

Vast Sodium Sulphate Deposits Located In Saskatchewan One Of Richest In The World

A survey conducted by Dominion Government experts has revealed that Saskatchewan possesses one of the greatest deposits of sodium sulphate in the world, according to a bulletin issued by the provincial bureau of publications. It is further stated that exploration of these deposits is now well advanced and present indications are that they are a potential source of wealth to the province.

It was stated by an official of the bureau of publications that the company engaged in the preparation of the sodium sulphate found in Horseshoe Lake is employing local labor almost exclusively. The payroll of the firm amounts to \$7,000 each month, it was said, and this amount is distributed in an area where the crops for the past two seasons have been extremely light.

The statement as issued by the bureau of publications is as follows:

"The 'alkali' lakes of Saskatchewan, which in days gone by were only considered as 'salt licks' for cattle are unquestionably designed to be a source of considerable wealth to the province in the near future.

"For many years these deposits were referred to rather contemptuously as 'alkali' or 'stink' lakes, and were not even considered worthy of investigation. As a rule vegetation did not flourish in their vicinity, and their only visitors were the range stock that, urged by some primitive instinct, came to lick the crystals, which science now declares to possess considerable veterinary virtue.

"During the war when an Empire-wide search was being conducted for nitrates, these deposits came under the expert eyes of science, and it was discovered that some of them contained vast quantities of sodium sulphate of remarkable quality.

"A survey of some of these Western beds, conducted a few years ago by members of the Dominion Geological Survey, indicated that Saskatchewan possessed a considerable portion of the world's supply, and for the first time in the history of the province definite information was obtained in respect to this valuable natural resource.

Sodium sulphate deposits occur in the beds of lakes that in the past have been designated as 'alkali.' Sometimes these lakes are practically dry, and sometimes there is a surface of water, seldom deep and varying according to the season, covering the material. The usual condition is shallow water in spring and early summer, which disappears as the season advances by evaporation, and incorporation with the sodium sulphate. When there is no water present, the surface presents the appearance of glare ice, but is much harder.

"To a stranger approaching one of these lakes during the summer, the condition he witnesses may well make him doubt the evidence of his senses. Here is a lake during the warmest portion of the year apparently frozen solid. So remarkable is the similitude, that it requires a close examination to dispel the illusion. In certain places about the deposits, dark, evil smelling springs well up from the nether depths, and it is a popularly accepted theory that they contain the chemical that forms the sodium sulphate.

"The beds of this material may be shallow or of great depth. In one extensive deposit the crystal deposit has a depth of nearly 140 feet. In some cases there may be slight layers of mud or vegetable deposit, but on the whole they are remarkably clean.

"Under normal conditions the sulphate deposit contains a large per-

centage of moisture, often 50 per cent., and in the past the chief problem facing those desirous of utilizing the product was to evolve a process of dehydrating it economically and in commercial quantities.

"Sodium sulphate is an essential in certain industries, and a valuable adjunct in others. It is an essential in the manufacture of kraft paper from pulp wood, and is regarded as the ideal digestant in all kinds of pulp manufacture. It is used extensively in dye works, textile manufacture, leaded glass, tanning, photographic supplies, and is the basis of many veterinary remedies. Lately it has been found that sodium sulphate is a valuable agent in the refining of nickel, and it is understood that there may be a considerable demand for it in connection with other metal processes.

"In the past most of the sodium sulphate used in Canada, chiefly in connection with the kraft paper industry, has been a synthetic material made from the by-products of hydrochloric and sulphuric acid. This synthetic sodium sulphate was manufactured at American chemical centres such as Pittsburgh, Cincinnati and Philadelphia and imported into Canada free of all duty. Owing to the short railway haul and other favorable conditions in the past, the natural product of Saskatchewan was unable to compete with it.

"Recently, however, a complete change has taken place that is bound to benefit the sodium sulphate industry in Saskatchewan. A new process has come into use in connection with the manufacture of these acids that leaves no residue and the economical manufacture of synthetic sodium sulphate has, almost overnight, become a thing of the past. Chemical engineers declare that it is doubtful if there is now any of the nitre cake used as a base for the synthetic product to be had nearer than Chile in South America. Furthermore the demand for sodium sulphate for the treatment of ores can hardly fail to exercise a stimulating effect upon the whole country.

"The problem of successfully drying, or dehydrating the material has been completely solved. A new mining company, which during the last year has erected a large plant at Ormiston, in this province, is drying it at the rate of about 100 tons per day. This concern has already shipped about 7,000 tons to the great nickel works near Sudbury, Ont., where they have apparently found it so successful in refining operations that they are at present taking their total output. Another company operating at Dunkirk, also in southern Saskatchewan, is drying and shipping in considerable quantity. A large demand seems to be springing up, and there is little doubt that this industry will have the effect of adding materially to the wealth of the province."

Helped With Problems

Canadian Farmers Receive Many Publications and Circulars Free Of Charge

The Department of Agriculture at Ottawa through its Publications Branch last year distributed to farmers all over Canada free of charge a total of 4,361,370 publications, bulletins, circulars and reports. In addition to this material 256 press articles and 198 magazine features were supplied. This is one of the ways in which the farmer is helped with his problems and kept in close touch with the condition of his markets and important new developments in agriculture.

Made Trip In Style

Phoning the railway, at Memphis, Tenn., a negro representing himself as the assistant superintendent of the Pullman Company, ordered a car to be attached to a certain train going to St. Louis. It was to be locked and a porter would go too. The car was coupled with the train. A negro who represented himself as a porter got aboard, rode to St. Louis and left the train at Union Station before his deception had been discovered.

Before Marriage: Spooning around. After: Forking over.

Client: "Are you sure this life belt will support me?"
Salesman: "Quite, and if it should fail you will get your money back."

Debt Adjusting Plan

Saskatchewan Sheriffs Will Co-Operate With Commissioner

Letters have been sent to each of the 300 governing bodies of the rural municipalities of Saskatchewan advising them that the sheriffs of the province will co-operate with the debt adjusting commissioner in referring all cases in which arbitration between debtors and creditors is asked for, to the commissioner, it was stated by Hon. Howard McConnell, Minister of Municipal Affairs.

It was further indicated that the municipalities had been asked to report all cases needing this assistance to the sheriff.

This action has arisen out of the meeting of the special committee of creditors and debtors, which was held recently at the parliament buildings, Regina. Following this meeting, at which representatives of various retail bodies, financial institutions, the United Farmers of Canada, Saskatchewan section, and the wheat pool were present, it was recommended that the sheriffs be asked to assist in matters of debt adjustment.

The special committee was called as result of representations to the government by the United Farmers of Canada that the creditor groups were, in many cases, pressing unduly for payment and that a condition of financial stress existed among the farmers of the province.

Soybean Becoming a Valuable Product

When Oil Is Extracted Residue Makes Good Stock Feed

A chemical analysis of soybean varieties being developed and tested by the agrostologists of the Dominion Department of Agriculture show a very close relation between protein and fat content in the soybean. The correlation is fairly constant. The greater the amount of fat or oil in the bean the lower the protein content and vice versa.

This is a development of special interest at the present time, in view of the fact that the commercial value of the soybean crop depends directly on the market price obtaining for oil or protein respectively. In tests of some twenty-five varieties grown at Ottawa, and eighteen grown at Harrow, Ontario, protein content ranges from 40.82 per cent. to 46.05 per cent. with the fat content ranging from 20.18 per cent. to 15.18 per cent. respectively are reported.

The soybean has two commercial uses, the production of soybean oil, and the use of the residue in the form of soybean meal or cake which because of its high protein content makes a valuable live stock feed.

In the first eight months of this year 36,565,000 pounds of lobsters have been caught in the Atlantic coastal waters of Canada. This is an increase of nearly 3,000,000 pounds over the catch in the corresponding period last year.

Minister Of Railways Says

Work At Port Churchill Is Months Ahead Of Schedule

Ontario Walnuts Best

Kent County Famous For High Grade Products

For walnuts, Kent County, Ontario, long famous for a variety of high grade farm and orchard products, claims to be in the front rank. This was proven recently at the Nut Growers' Conference held at Cedar Rapids, Iowa, when an exhibit of Japanese walnuts grown by Harold English, whose farm is close to Chatham, was declared the best ever seen by those in attendance at the Conference. Large size, good cracking, extraction quality, and fine flavour were the points on which the experts based their decision. The tree from which these fine nuts came is a beautiful specimen and has made very rapid growth. It is only six years old and has borne two good crops.

Saskatchewan Milk Pool

Creamery Plant To Be Erected At Saskatoon

Starting a little more than three years ago with no assets, the Saskatoon Milk Pool, which now has assets of \$75,000, will enter the creamery business. A large plant will be erected at Saskatoon shortly to take care of expanding interests, officials announced recently.

To date, the Milk Pool has handled only shipments of whole milk, preparing the surplus for sale as cream and milk powder. During the last year 16,500,000 pounds of milk, valued at \$425,000, were handled. The Pool is a purely co-operative organization with Saskatoon district farmers as directors.

Manitoba Poultry

Exhibit At World's Poultry Show In London, England, Attracts Attention

Three birds exhibited by W. H. Shepherd, of St. Vital, a suburb of Manitoba, at the recent exhibition of the world's Poultry Congress in London, England, and which were bid in at the public auction following the show, for the royal farms of Jugoslavia, have resulted in a further order from the same farms for 26 more birds.

Western Wheat For Foreign Ports

According to figures prepared by the Merchants Exchange of Vancouver, Western Canada has been supplying the South American Republic of Colombia with about 20,000 tons of grain each year for the past five years. The largest cargo of wheat ever shipped from Vancouver left for Shanghai the other day, carrying more than 450,000 bushels.

Back from a flying inspection trip of Hudson Bay Railway and Churchill, Hon. R. J. Manion, Minister of Railways and Canals, expressed keen satisfaction with the progress of the work.

"Unless something very unforeseen or unexpected happens," Dr. Manion declared, "we will be able to open Churchill for test shipments next September. The railway is in shape right to Churchill and I was most impressed with Churchill harbor, as, when properly dredged, it can hold an immense fleet.

"There remains a good deal of work in regard to the arranging of insurance rates, chartering vessels and matters of that nature, but steps are being taken well in advance to see that nothing is overlooked.

"While I have never visited Port Nelson, I have had reports on it, and it is my opinion that Churchill was a very wise choice as the terminal, possessing a natural harbor with some dredging required. As to the future of Churchill as a shipping port, of course, time and experience of the route alone will tell, but many are most optimistic about Churchill becoming one of the most important ports."

Approximately half of the deep water main dock is completed, Dr. Manion stated, months ahead of schedule. The dock would be completed, including filling, before the end of 1931. With respect to dredging, Dr. Manion said that 50 per cent. of the work had been performed, while a similar percentage of the filling had been done. The water supply problem, of a difficult and unusual character, had been apparently solved, the minister declared. Three-quarters of the work in this regard, he continued, had been performed and this particular task would be completed next year.

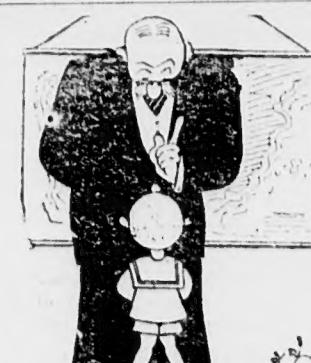

Questioned with respect to the huge elevator under construction at Churchill town, Dr. Manion stated that progress was being made in accordance with the schedule. The main elevator contract provides for completion not later than September 15, 1931. Dr. Manion explained, with a penalty of default of \$1,000 per day. Contracts for 3,600 kilowatt power house, the minister said, call for completion not later than September next, with a penalty clause for any default.

"With an elevator of practically continuous capacity of 40,000 bushels per hour," the minister declared, "it should not be difficult to load one average tramp boat per day, to be increased to three boats when the dock and all grain conveyors are completed.

Dr. Manion was accompanied on his trip by his deputy, V. I. Smart, Col. A. E. Dubuc, chief engineer of the department; C. D. Howe, of C. D. Howe & Co., designing engineers; Vice President Warren, of the western division, Canadian National Railways and officials of the system.

No Getting Out Of It

News has reached Berlin that Polish people must take a bath at least once a month whether they need it or not. The Polish government is introducing a law under which every inhabitant of the country will be compelled to take at least one bath a month. What is more, he must have a card stamped to prove it.

ARMISTICE DAY

Last Tuesday the greater part of the world observed the anniversary of the signing of the Armistice. In Canada, nearly everywhere, a simple service about the local memorial shaft recalled to memory those who laid down their lives in the world's greatest conflict.

As the years recede from that time, when the world was in turmoil, the causes of the war become to a great extent unintelligible. In that spirit we are apt to think altogether too lightly of the sacrifice that the fallen made. They went forth in a spirit of unselfish devotion to a great cause, that of world freedom, and in the confidence that the world would be a better place in which to live, were militarism overthrown, they faced terrific odds and met death.

To us who recall those years and the patriotic fervor that gripped everyone, is left a great responsibility in setting an example for future generations in the honoring of our war dead. If we who knew them and were acquainted with the conditions under which they died fail to do justice to their memory, how can succeeding generations acquire a background for perpetuating the memory of those fallen heroes?

EDUCATION OF SOLDIERS' CHILDREN ACT

Art Wakelyn, the Provincial Secretary of the Canadian Legion, B.E.S.L., in Alberta, has asked this office to be kind enough to publish the terms of the Alberta Provincial Act passed this year under which applications might be made for assistance to the children of ex-soldiers who require aid in obtaining further training in life as follows:

(1) The educational facilities which the Board may authorize shall be:

(a) Academic courses up to obtaining the standing required for entrance into the University of Alberta, or for a second class teacher's diploma.

(b) Technical, agricultural, and commercial courses in those Institutes which are covered by the Inspectorate of the Departments of Education and Agriculture.

(c) Nursing, Domestic Science and kindred subjects covered by the Inspectorate of the Department of Health.

(2) The Board is fully empowered to grant assistance to children who have attained Grade 8 standing or higher.

Further information can be obtained from any Branch of the Canadian Legion, B.E.S.L., in Alberta, or direct from the Registrar, The Education of Soldiers' Children Act, P.O. Box 667, Edmonton, Alberta.

LOCAL & GENERAL

Mr. and Mrs. A. G. Stuber spent Thanksgiving in Calgary.

Mr. and Mrs. J. Fleury spent the holiday visiting Calgary, McLeod, and other points.

Miss Henderson, of Calgary, visited her sister, Mrs. Kendrick, over the holiday.

Mr. Gray Sharp, who is attending the University of Alberta, spent Thanksgiving with his parents here.

Mr. J. Cutler, of McLeod, spent the week-end with Mr. Aylmer Lissner.

Mr. L. B. Fulkerth has gone to Winnipeg to attend the United Grain Growers convention.

Mrs. W. H. Chamberlin spent the holiday visiting her sister at Edmonton.

Messrs. Jack Currie and Jim Fernie spent Thanksgiving in Calgary.

Mr. and Mrs. A. C. Galbraith, of Calgary, were visitors with Mr. and Mrs. J. A. McGhee last week-end.

Miss McNab, of the High School staff, spent the holiday in Edmonton while Miss McKenzie was a Calgary visitor.

Mr. E. Y. Woods has purchased a registered Holstein bull from Mr. F. W. Leeson. This animal won the championship at the local fair.

Mr. W. Leadbetter will hold a sale of household furniture, on Saturday, November 22nd. Archie Boyce is auctioneer.

Mr. Arthur Schumaker, who has been visiting his uncle and aunt, Mr. and Mrs. M. Cressman, during the past summer, is leaving this week for his home in Ontario.

Work has commenced on graveling the blind line west of town, and about a mile will be gravelled this fall. Mr. W. J. McCoy has charge of the work.

Mrs. K. A. Blatchford, Miss Grace and Mr. Howard, returned to Edmonton on Monday after spending the week-end with Mr. and Mrs. E. G. Ranton.

On Monday night, a coupe went into the ditch on the highway a few miles south of town, when the driver who was going south, endeavored to overtake another car going in the same direction. The occupants were not hurt, but the coupe was badly damaged.

The local lodge of the Eastern Star held a special meeting on Thursday evening last, when they received an official visit from the Worthy Grand Matron of Alberta, Miss E. Isaacs, of Calgary. Mrs. C. B. Hartman, Associate Grand Conductress, and Dr. Hartman, Past Patron, of Olds, Mrs. Grant Parks, of Edmonton, and Mrs. Merton, of Innisfail, were among the visitors, together with a large number of members of the Old Chapter. After lodge, a short program was much enjoyed, and lunch served.

Poultry Wanted

ALL DAY
THURSDAY, NOVEMBER 20th

Swift Candian Co., Ltd. will be at our Office to purchase CHICKEN, FOWL, GEESE AND DUCKS.

This will be a good opportunity to get the higher market price at home.

We would advise everybody to hold their turkeys, and feed heavy for better finish, as all packers are complaining that the turkeys are not good enough yet.

We want the turkeys in the early part of December, and will advise date later.

"Metis" Dancers for Quebec

From far-off Edmonton, outpost of Canada's wide West, to old Quebec, cradle of her civilization and gateway from Europe under both French and English régimes, a group of men and maidens of mixed French-Indian and Scotch-Indian blood will bring their tribute to the shrine of Terpsichore, when the Dance and Folk Song Festival opens at the Canadian Pacific Railway's Chateau Frontenac hotel, on October 16th, 1930.

There are twelve in the party and all proudly claim that their ancestry gives them the prime right to the title of "Canadian". The above drawing by Kathleen Shackleton, noted portraitist, made from life, shows the beauty resultant from the mingling of the European and Indian stocks. As performers, the Westerners have a varied programme to offer, including toe-dancing in moccasins.

Didsbury Lodge No. 18, I.O.O.F.

Barn Burnt
At Westerdale.

The barn on Mr. Walter Herber's farm in the Westerdale district was completely destroyed by fire on Thursday morning last.

The threshing crew, who were working at the farm, had been sleeping in the barn, and it is thought the fire was the result of an extinguished cigarette.

The fire was observed about ten o'clock in the morning, but by the time the men reached the scene, it was beyond control. A loaded grain wagon, which stood in the doorway of the barn was saved, but all the personal effects of the crew were destroyed.

Don'ts For Hunters

Don't keep your gun loaded, except when actually hunting, but handle it at all times as if it were loaded.

Don't point your gun at anyone, even if you are sure it is empty.

Don't handle a gun by the muzzle, or pull it towards you.

Don't carry your gun when climbing fences or brush-piles.

Don't carry your gun so that an accidental discharge might shoot your companion.

Don't shoot at any game, unless you can see it clearly enough to positively identify it.

Don't be the fool who "didn't know it was loaded."

IS COW TESTING WORTH WHILE

Cow testing is carried on differently in different countries, in the United States it is carried on under Herd Improvement Associations, in Canada under Cow Testing Associations, in some of the Provinces, of which Alberta is one, and Herd Improvement Associations in others.

In one of the States during 1929 there were 152,000 cows in the Herd Improvement Associations. The following figures were obtained through the work carried on.

A cow that produced 100 pounds of butterfat in the year paid for her feed and showed a profit of \$15. The cow that produced 200 pounds of fat paid a profit over feed costs of \$64, 300 pound cows \$113, 400 pound cows \$165, 500 pound cows \$215. One cow in the 500 pound class made more profit than a herd of fourteen in the 100 pound class despite the fact that the herd of fourteen put on the market two and two-third times as much butterfat as the 500.

It will be seen from the above that an increase of five-fold of butterfat means an increase of fourteen-fold in dollars and cents.

It should also be noted that the cow that produces much less than 100 pounds of butterfat in a year is not paying for her feed.

The Didsbury Cow Testing Association has been in operation for some time and has at present a membership of about twenty. They will make a drive for new members and will hold a meeting early in December. Any information regarding the Association can be obtained from Mr. J. W. Wordie, at the Crystal Dairy.

WORLD HAPPENINGS BRIEFLY TOLD

Alexander Harrison, of Philadelphia, one of the most noted United States painters, died recently after a long illness, in his Paris studio. He was 67 years old.

The U.S. weather bureau will issue fire warnings from a radio station near Madison, Wis., during the hazard season, it has been announced by the state department of agriculture.

Medicine Hat statistics show that only 210 dwellings in the municipality are occupied by tenants, the balance all being owned by occupants, thus establishing most unique Canadian record.

Plans to hold a re-union of the families and descendants of all former Presidents of the United States at the capital is being fostered in connection with the 1932 Washington bicentennial programme.

Canada will produce 45,260,000 hundredweight of potatoes this year, according to a forecast made by the Dominion Bureau of Statistics. Last year Canada's crop was 39,930,000 cwt.

Prohibition of advertising of hard liquor in Manitoba has been ordered by the Manitoba liquor control commission. In future, no advertisements will be approved by the board. The ban has been in effect since the beginning of October.

The association of South African Chambers of Commerce, in their annual congress, urged the government of South Africa to pursue a policy of intensive development of trade with the countries of the British Commonwealth.

Discovery of a Socialist bomb plot against the life of Marshal Joseph Pilsudski, premier of Poland, was announced by the semi-official Iskra Agency, and eight members of the Polish Socialist Party were arrested at Warsaw and accused of preparing the plot.

Persian Balm — the unrivaled toilet requisite. Essential to every dainty woman. Imparts rare charm and beauty to the complexion. Softens and beautifies the skin. Makes hands flawlessly white. Cools and refreshes. Relieves roughness. Ideal for true feminine distinction. Delicately fragrant. Swiftly absorbed into the tissues, leaving no stickiness. Persian Balm invariably creates a subtle elegance and charm.

Manitoba Stone For Edmonton
The final shipment of Tyndall stone, from the Tyndall quarries in Manitoba, to Edmonton in connection with the \$250,000 contract for the Alberta Provincial Buildings at Edmonton, has been made ahead of schedule.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and gripe and leave a depressed after effect.

Avoid lubricating oils which only grease the intestines and encourage nature's machinery to become lazy.

A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, bile starts to flow, the bowels move gently, the intestines are thoroughly cleansed and constipation poisons pass away. The stomach, liver and bowels are now active and the system enjoys a real tonic effect. All druggists 25c and 75c red pkgs.

Finds Use For Muskeg

May Establish Industry To Produce Insulating Material

An American company with headquarters at Minneapolis, is investigating commercial uses for the northern muskegs with a view of establishing an industry to produce insulation material. While the prospect of using muskeg as an insulating material is something new to the majority of citizens of Canada, it is an old trick of the veteran prospectors in this area.

But hundreds of log cabins of trappers and prospectors in the northern areas of Manitoba and Saskatchewan have been packed with the bog material for years, keeping out both the freezing blasts of the northern winds and the burning sun of northern Manitoba to the entire satisfaction of the owner of the cabin.

No local information can be obtained regarding the investigations by the American firm of the industrial use of muskeg, but early in the spring a substantial shipment of the muskeg left here for the south.

(By Eva Tingey).

7274

PRETTILY DRAPED

All Tingey models are created and sketched in Paris and the patterns are made in New York.

Delightful draped effects mark many of the new bodice and skirt effects, giving almost Greek grace to the voguish dresses.

The model illustrated for today's pattern has a new and charming collar. It forms a pretty drape on one side and is caught with a modern brooch or a button, preferably a jeweled one if the material is rich like satin, crepe-de-chine, marocain, chiffon velvet, etc. The model would also cut charmingly in a facoon velvet of which some lovely new designs are to be seen.

To be in keeping with the bodice trim, the skirt drapes prettily on one side where the weight of the fullness of stuff just causes the merest dip at the point. The belt is narrow and of self tissue.

This pattern may be obtained in sizes 14 to 20 and 34 to 42. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamp or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Should Check Up Unemployed

Some May Not Be Deserving Of Government Relief

Unemployment figures in urban centres are augmented each winter through the migration of men who work steadily on farms in the summer and rather than accept a smaller wage for the winter months or perhaps merely comfortable board they journeyed cityward in the hope of sharing in the jobs handed out by benevolent city councils. Urban municipalities should keep a close check on these migrants and refuse to increase the burden upon their municipalities and the country at large by maintaining these men in semi-idleness for five months out of the year.

It will be grossly unfair to taxpayers everywhere if part of the twenty million dollars appropriated by the Dominion Government and the thousands of dollars that are added to it by the provinces and municipalities is used to maintain the migratory class of laborer who has been offered winter employment and turns it down in order to share in the millions voted for unemployment relief.—Farmer's Advocate.

Recipes For This Week

(By Betty Barclay)

SCALLOPED TOMATOES

Drain one can tomatoes from some of their liquor. Season with salt, pepper, a few drops of onion juice, and 2 teaspoons sugar. Cover the bottom of a buttered baking dish with buttered bread crumbs, cover with tomatoes, and sprinkle top thickly with buttered crumbs. Bake in a hot oven until crumbs are brown.

LEMON-TAPIOCA SHERBET WITHOUT FREEZING

1/2 cup quick-cooking tapioca,
1 cup sugar,
2 cups water,
Juice 2 lemons,
2 egg whites.

Put tapioca, sugar and water into double boiler, and cook, stirring often, until clear. Three minutes before removing from fire, add lemon juice. When cool and beginning to thicken, add the stiffly-beaten egg whites, and beat well. Serve with boiled custard or heavy cream.

Douglas' Egyptian Liniment is without a rival. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning.

Less Crime In Britain

Several Prisons Are Closed For Lack Of Occupants

Crime in Great Britain has deteriorated so much that prisons are operating far below capacity, and several have actually closed for lack of occupants, states Dr. Higgins, medical officer of the prison in Liverpool, who arrived in New York recently.

He attributed the decrease in crime to the system of swift justice, strict laws, requiring the closing of saloons at certain hours, and to the fact that a prisoner or a person fined for an offence is kept under close surveillance after his release or payment of the fine.

Corns INSTANT relief! PUTNAM'S Corn Extractor

Planning New National Park

Proposed Site Is In Manitoba Near Clearwater Lake

The northern Manitoba mineral belt, already established in the commercial field, will have the furthest north national park in Canada if plans of The Pas Board of Trade are carried to fruition. A committee of prominent northerners is now engaged in taking the matter up where the Federal Government left off a few years ago.

The proposed site for the reservation is in the Clearwater Lake region. The lake is at Mile 17 on the Hudson Bay railway and is the most popular resort "north of 53."

The national park agitation dates back several years, and it arises anew through the transfer of natural resources to the province of Manitoba. Word has been received from Winnipeg that the provincial authorities intend to re-survey the park site, and it is possible that the boundaries of the reservation will be marked out next year.

In the federal survey, no provision was made whereby holiday-seekers could title to lands to build cottages. The result has been that several summer homes have sprung up on property set apart for park purposes, and the problem today is to map out territory which will not inconvenience present cottagers in the resort area.

The board of trade committee will investigate the whole situation, and after a report has been made to the board the matter will be presented to the Manitoba Government.

Clearwater Lake is an ideal summer resort in the hinterland. During two months in the summer, the water is warm enough for bathing, while fishing and boating are excellent. At present, the only connection with The Pas is via The Hudson Bay railway, but a motor road survey has already been started and the highway is expected to be completed by next summer.

Build Big Bridge

Structure Over One Thousand Feet In Length Being Erected At Brosseau, Alberta

Work on the steel superstructure of the new traffic bridge across the Saskatchewan River at Brosseau, Alberta, which is being built by the Department of Public Works, has begun. The bridge is the largest that the department has built for several years, and will be one of the largest in the province, running to something over a thousand feet in length.

An Oil Of Merit. — Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

Starts Mystery Flight

Great Secrecy Surrounds Destination Of British Woman Aviator

Mrs. Victor Bruce, British woman aviator, has started from Heston, Middlesex, air park, on a mystery flight in her single-seater Bluebird aeroplane.

The greatest secrecy surrounded her destination. One report credited her with the intention of flying east across Europe to Persia, India, China, and Japan. Another said that she was flying to Alexandria and then down to Cape Town.

There was still another report that said she was flying around the world and would be gone three years.

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

Started In Small Way

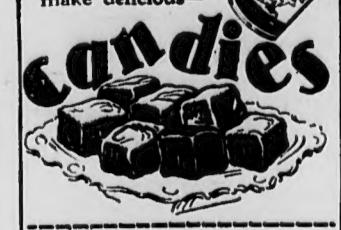

The dahlia began its spectacular career most modestly in 1779 when a few seeds were sent from Mexico to Madrid. By 1841 some 1,200 varieties had sprung from this little packet of seeds (not bulbs—"a truly remarkable example," says Dr. Howe "of a plant's capacity for variation when aided by man.") Today more than 8,000 varieties are in cultivation, thousands have been discarded and there is a dahlia society in every state.

Pencils are being sold by vending machines in Czechoslovakia.

Interest In Show

For the purpose of interesting ministers of agriculture and producers' organizations in a number of European countries in the World's Grain Exhibition and Conference to be held in Regina in 1932, John A. Mooney, managing director, is now on a tour of the continent. His itinerary includes the countries of Czechoslovakia, Jugoslavia, Bulgaria, Roumania, Turkey, Greece, Italy, Spain, Portugal, France, Switzerland, Belgium and Holland; and he expects to be back in Canada by the middle of November.

USES PINKHAM MEDICINES

Praises Vegetable Compound, Blood Medicine and Liver Pills

Birchtown, Quebec—"I live 13 miles from town on a farm, with all my home duties and churning to attend to. At the Change of Life, I became nervous and rundown. The Vegetable Compound helped my whole system. My nerves are better, my appetite is good and I am able to do my work. I have also taken the Blood Medicine and the Liver Pills and they helped me. I will answer letters from women asking about your medicines."—Mrs. RICHARD CHARLTON, Birchtown, Quebec.

CHILDREN CRY FOR IT—

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. And this pure vegetable preparation is just as good as it tastes; just as bland and just as harmless as the recipe reads.

When Baby's cry warns of colic, a few drops of Castoria has him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, you should use it to keep the system from clogging.

Castoria is sold in every drugstore; the genuine always bears Chas. H. Fletcher's signature.

CHAPTER II.—Continued.

Considering all it meant it was over in an incredibly few minutes, but during the entire time Gay did not look at Nick. She looked at Lincoln, not alone because his familiar visage steadied her, but because if she kept her eyes upon him she couldn't see Josiah K. Miller's beard.

Somehow she found herself shaking hands with the owner of the beard, and nodding dazedly to the clerk and the stenographer. Somehow, with the help of Nick's firm hand, she got down the dark staircase, and into the blinding sunshine of the spring day.

Still she didn't meet Nick's eyes. The whole performance had been a nightmare—a hideous travesty of sacred things. She was hurt and quivering. She glanced down at the gold band on her fourth finger—wondered vaguely where Nick had got it, and realized at its sight that she was married—married without the touch of her husband's lips. The thought that not once during the whole day had Nick been anything but brotherly, suddenly scorched her. Surely, had he loved her ever so little, he would have kissed her! And to let her be married in that dreadful place...

Gay didn't know that her quick breathing was almost audible. She hardly knew that they were in the car again and had left the highway for a secluded street. She didn't notice that the car had stopped; but she

heard Nick say, a trifle hoarsely: "Gay—darling—if I'd known. . . ."

And just then a voice broke in upon them: a high shrill, old-man voice: "By gorry! if ain't Nick Hastings!"

They both stared, to behold a little man in baggy trousers and a wide-brimmed hat. He was carrying a huge umbrella, and looked to Gay like a character from Dickens; but Nick, beaming, stretched out a cordial hand.

"Why, hello, Mr. Bartlett! Aren't you a good way from home?"

"I be and I be'n't," was the enigmatic answer. "Truth is, I've moved since last you come. Couldn't stand the noise from that darn railroad; but no place is ever goin' to seem home to me but the house where I lived with my old woman. This your lady, Nick?"

Nick grinned, and turned to Gay with the familiar light in his blue eyes again.

"Gay, I want you to know Mr. Bartlett, a good friend of mine. This is my—wife, Mr. Bartlett. I've been married since last you saw me. We—we're taking a little trip."

The old man lowered his umbrella and squinted up out of near-sighted eyes.

"Well, well. Pleasant time to be startin'. Some like fall, but I say, give me spring every time—spring an' apple blossoms. Ain't nothin' prettier. Where you aimin' to put up over night?"

"We haven't made any plans. That is, we—we started rather suddenly and—"

"I see, I see," interrupted Mr. Bartlett. "That's the way to do. That's the way we'd start out forty year ago, me and my old woman; only we went behind an old white horse. Say, why not use my camp?"

Nick stared a minute. "You mean that bully little cabin on the hillside? The place I found you when I brought over that mortgage for you to sign?"

His voice was eager, and the old man beamed.

"That's it. Awful pretty place to stop. I was there yesterday—cleaned her up—laid the fires—took up a lot o' canned goods, thinkin' maybe I'd be goin' to stay a day or so. May need a mite o' dustin', but gorry! so does the Central House! You're welcome to stay long as you want to, Nick, that is, if your wife'd like it."

"You would, wouldn't you, Gay?" asked Nick eagerly. "It's the snuggest little place you ever saw, with a glorious view of the White Mountains from the porch. Of course, if you'd rather go to a hotel—" he added doubtfully, but Gay, who had regained her composure during this conversation, reassured him.

"It sounds beautiful. I'd like it much better than a hotel, and—"

"Well, that settles it!" interrupted the old man quickly. "Now if you'll take my umbrella (I had a sunstroke once, ma'am, and never travel without it), I'll hang onto the runnin' board and you can carry me back to the house—third, from the corner, Nick, the white one, and I'll give you the key. No, ma'am, don't move. I like ridin' on the runnin' board. Makes me feel like a boy. It's lucky I went up yesterday and ained her out. The bed's all made, ma'am, and they're extra blankets in the chest. I'll give you a jar o' milk and some eggs. . . ."

He continued to rattle on, planning for them as happily as if they had been his children. It was, perhaps, the best thing that could have happened to them at just that moment. It brought them back to a sane and normal world, after that torturing cere-

OVER 17 MILLION JARS USED YEARLY

mony in the office of the Justice of the Peace. When they left, Mr. Bartlett waving a vigorous farewell from his front porch, they were themselves again.

"That old man does a lot of business with the bank," Nick explained when they turned a corner. "Rich as mud, he is, and quite a character. Mr. Maxwell used to send me over to get his signature, and for some reason the old codger took a fancy to me. Don't know why, except that I used to jolly him. Once I spent a whole day with him at his camp. Oh, Gay! I hope you'll like it the way I did! it may atone—"

He stopped abruptly, and drew her attention to some budding violets. A silence fell upon them, but it was a silence of understanding, not constraint. Once, indeed, Nick lifted the hand that wore his ring, slipping it beneath his own upon the steering wheel; and the act brought Gay a sense of security and well-being.

But they were children again when they explored the cabin. Nick declared that it was even more delightful than he remembered it; and insisted, with an ardent glance that brought color to Gay's cheeks, that the added charm was due to present circumstance.

"It's—perfect," she agreed.

They had finished their supper and stood together in the doorway, looking down through the pines that guarded their hearthstone, to where green woodlands bordered on greener meadows—where quiet lakes gleamed dully in the twilight, and mountains, blue and majestic, were silhouetted against the sky. The silence deepened. A star shone out—and then another. . . . Gay drew a tremulous breath.

"I feel—like a bird in its nest."

Nick's arm went round her shoulders, drawing her closer.

"A bird in its nest," he echoed. "Well—" He dropped the protecting arm, and faced her suddenly. "Gay—what have you thought of me all day? It came to me there in that abominable office, when—when you wouldn't look at me, that I hadn't behaved the way I should have. I suppose I was teasing myself a little. I didn't realize that I was teasing you as well. Do you remember when we were kids, Gay, and my mother'd sometimes take us on a picnic, how I always saved the choicest morsels for the last? I think, dear, it was that quality in my make-up, which kept me from kissing you today when I was tempted. I thought: 'I'll wait. Our first kiss shall be part of our wedding ceremony.' 'Ceremony! In that horrible place! Oh, Gay, don't you know that it hurts me as much as ever it hurt you? I thought: 'If only she'll look into my eyes I'll make her understand.' But you didn't look, dear, and—and of course I couldn't kiss you there! And when we got outside it was hard to speak. I was scared, honestly, scared of what you must be thinking. . . . Gay—dearest—let's forget it, and—"

"Forget—our wedding?"

"Yes, if you call that miserable affair a wedding. I don't. I think it takes something more than a slovenly Justice of the Peace, and the signatures of a gum-chewing girl and a vulgar little clerk, to make a marriage. God's a good enough witness for me, Gay; and I promise you now that I'll love you—and honour you—and be true to you, dear, 'until death us do part.'"

His eyes met hers in a long and steadfast look.

Mutely, she stretched out her hands, and holding them in a warm clasp against his heart, Nick kissed her.

CHAPTER III.

A week later they were on their way, though strangely, it was Nick who protested at a change when Gay suggested that they had accepted Mr. Bartlett's hospitality long enough. She was seated on the ground beneath a pine tree, while the boy lay

W. N. U. 1860

at her feet, idly running the brown needles through his fingers.

"But I could stay here forever!" he exclaimed, and his regret at leaving "The Bird's Nest," as Gay had christened their first stopping place among the trees, was so apparent that the girl smiled.

"Forever?" she queried. "And what's to become of the ends of the earth you were seeking?"

He straightened up, looking at her with what she secretly called his "new look"—not the comrade-look she had grown up with, but something dearer.

"It sounds rather far away—the ends of the earth," he admitted. "I won't say that it doesn't call me, but in the last week I've discovered qualities I didn't know that I possessed. Perhaps I'm becoming tamed! If I'd had the sense to discover you before, Gay, we'd be living contentedly in my late uncle's house on Elm Street, and you'd be kissing me good-bye each morning at eight-fifteen, when I started for the bank."

(To Be Continued).

DEPRESSION

"I'm a different woman"

"Two years ago I began to get depressed, and everything was too much trouble for me. I was a misery to myself and everyone around me. I was advised to take Kruschen Salts by my friends who said it was the same as Kruschen but it did me no good, so at last my husband got me a bottle of Kruschen and no one would realize the difference I am. I have been taking Kruschen now constantly for two years. My daughter also would not be without it. I have got my neighbour to take Kruschen as well and she has found its worth as she feels a different woman."

—(Mrs. G. A. K.)

The commonest cause of depression is *partial constipation*—an insidious complaint because the sufferer is seldom aware of it. It means the gradual accumulation of body poisons which dull the mind, damp the spirits, and waste the nervous strength and lower the whole vitality.

Kruschen Salts make constipation impossible. Therefore, if you keep to Kruschen you need never know the meaning of melancholy; never feel "nervy" or depressed.

Little Helps For This Week

For Either the Newborn Babe Or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says: "We have three fine, healthy children, to whom when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Riot Caused By Umbrellas

Indian Low Castes Carried Them For a Day

A job lot of western umbrellas and shoes caused a riot on the Laccadive Islands, 150 miles off the Malabar coast. The Koyas, or aristocracy of the islands, long ago decreed that they alone might go shod and carry umbrellas but when the western shipment came in the Malumis, or sailor caste, and the Melacheris, who pick cocoanuts, decided to try dressing up. They picked 11 Melacheris and nine Malumis to defy the old edict and it was a gala day for the strutting low castes until the Koyas' chief heard about it and ordered out his spearmen. After the fight the mannequins found themselves in jail.

Minard's Liniment has a hundred uses.

Up-Keep Is Expensive

Costs More To Run New York City Than Canada

The 1931 budget of New York City will mount to a new high record of at least \$632,400,000, a survey of New York's expenses, past, present and future, indicated.

This would amount to \$67,630,272 more than the budget for the current year and would be the greatest increase in the history of any city anywhere.

The entire governmental expense for the Dominion of Canada in 1929 was about \$281,400,000 in round figures below the city budget that is expected in 1931.

HEAD HURT?

WORK won't wait for a headache to wear off. Don't look for sympathy at such times, but get some Aspirin. It never fails.

Don't be a chronic sufferer from headaches, or any other pain. See a doctor and get at the cause. Meantime, don't play martyr. There's always quick comfort in Aspirin. It never does any harm. Isn't it foolish to suffer any needless pain? It may be only a simple headache, or it may be neuralgia or neuritis. Rheumatism, Lumbago. Aspirin is still the sensible thing to take. There is hardly any ache or pain these tablets can't relieve; they are a great comfort to women who suffer periodically; they are

always to be relied on for breaking up colds.

Buy the box that says Aspirin and has Genuine printed in red. Genuine Aspirin tablets do not depress the heart. All druggists.

ASPIRIN

TRADE-MARK REG.

Too much ACID

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine, prescribed by doctors for conditions due to excess acid. It is always a liquid; it cannot be made in tablet form. Look for the name Phillips' and the word *genuine* in red.

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms, such as headaches, gas, heartburn, etc., will disappear in five minutes.

WESTCOTT W.I.

Owing to the bazaar at Westcott School on October 24th, and the Didsbury Chautauqua coming immediately after, the October meeting of the W.I. was postponed until November 6th, when it was held at Mrs. R. A. MacFarlane's. Roll-Call was answered by a "question box," and it proved both enjoyable and helpful. Mrs. Martin Jacobsen read a paper on Immigration, taking for her subject, part of Dean Howe's address given at the W.I. convention in Calgary last May. This was followed by readings and a contest, after which the meeting closed, and lunch was served by the hostess. The next meeting will be held at Mrs. Ed. Klinck's, on November 27th.

Melvin Notes.

A number of this community attended the chicken supper in Didsbury, on Tuesday evening.

Mr. and Mrs. Leeson, and Mr. and Mrs. Carlton spent Thanksgiving with friends in Calgary.

Miss Florence O'Brien, of New Norway spent Thanksgiving with her aunt Mrs. George Youngs.

Miss Mildred Brown, attended High River convention, the guest of Miss Florence Bissit.

A number of the Melvinites are spending the rest of the week in the wilderness hunting wild game.

Mr. and Mrs. Peter Johnston, and family spent Thanksgiving with Mrs. Johnston's parents, Mr. and Mrs. Troyer, of Didsbury.

The Go-Getters are holding a chicken supper at Melvin school on November 26th. Watch for further announcements.

We are very sorry to report that Miss Helen Kynel, is again very ill and is now in the Didsbury Hospital. We wish her a speedy recovery.

Now that threshing is over, the boys are rejoicing at the colder weather, some of the smaller ones are even looking at the thin layer of ice on the Dog Pound.

The Go-Getters didn't have a very large turn-up at their dance on Friday, but those present seemed to enjoy themselves. They are putting on a fowl supper in Melvin School on November 26th, and hope everybody will come and do justice to the meal.

Obituary.

The sad news of the death of Miss Dorothy Mae Evans, aged 15, who died on November 8th, as a result of a sudden and fatal attack of infantile paralysis, came as a great shock to the entire community. She was the eldest child of Mr. and Mrs. David Evans, living fifteen miles west of Didsbury, and was a tenth grade pupil in the Didsbury High School. Since coming to town at the opening of the fall term, she has won a high standing socially, morally, and educationally as a memorial to her honor. She was also a member and regular attender of the Intermediate League Christian Endeavor of the Evangelical Church.

Her illness began on Tuesday with symptoms of a common cold, sore throat, etc., which did not appear to be serious until Thursday, after midnight. Along with a local doctor in attendance, a specialist from Calgary was also summoned on Friday, but in vain, she passed away early on Saturday morning.

Both parents, one sister and two brothers are left to mourn her loss. On account of the nature of the disease, the funeral was held on the lawn, as an open-air service, at the family residence, Rev. H. E. Roppel officiating.

The large number of neighbors and friends in attendance at the funeral, indicated the heart-felt sympathy of the general public. Interment was made in Didsbury cemetery.

C. E. REIBER

Cerk

W.C.T.U.

The W.C.T.U., with their husbands and friends met at the home of Mrs. H. Reiber in a parlor meeting on Friday evening, November 7th at 8 p.m.

Rev. H. E. Roppel acted as chairman, while Miss Zillah Cressman took the devotional. We were then privileged to listen to the report of the eighteenth W.C.T.U. provincial convention, which was held at Red Deer in October, given by Mrs. (Rev.) Hallman, in which she stated very interesting thoughts of Mrs. McKinney's annual address. Mrs. Hallman also stated that Didsbury is the only union having a resident missionary in Africa, in the person of Mrs. Florence Finlay.

Several new life-members were announced, including one from Didsbury, Miss Zillah Cressman. Addresses on the coming temperance campaign were given by Reverends Hallman and Roppel.

We were then favored with a solo by Rev. Hallman, "Your Roses may have Thorns." Mrs. Gabel then gave the story of the Sceptic's Daughter, followed by a much-enjoyed trio by Misses Enith Hunsperger, Olive Chamberlain, and Zillah Cressman. A pleasant social evening was then spent.
